

Engineering Change Notice		#: DST-10053E Date: 3 JULY 2015 Approved by: T.Kawano–Quality Assurance Issued by: Tak Inoue – International Sales	
Product	Copyboard	Model	M-17S/W, M-18S/W
Change	Firmware upgrade to Ver.23.00		
Reasons	To enhance HP PCL3 GUI printer compatibility		
Schedule	From May/June 2015 production		
Methods	Running change for production and release of new firmware on the web page		
<p>[Details of the change]</p> <p>We have enhanced the compatibility with HP PCL3GUI printers. By this enhancement, more HP PCL3GUI printers can work with M17/18 series copyboards. “Blue” print color reproduction improvement is included in this enhancement, too. Blue color was printed as more purple in the previous firmware when the scanned image was printed by HP printers connected to the copyboards.</p> <p>New firmware is installed from following serial numbers.</p> <p>M-17S: 17SRB5620508 M-17W: 17WRB5620524</p> <p>M-18S: 18SRB5520608 M-18W: 18WSRB5520593</p> <p>From this firmware following printers are officially announced as compatible:</p> <p>HP Deskjet 2540/Envy4500 Brother HL-2360DN</p> <p>New firmware will be posted in the following sites.</p> <p>*Our webpage: http://www.plus-vision.com/en/support/download/update.html *Contents server: https://www.plus-vision.co.jp/dx/ns/plus/ can be entered with your ID and password.</p> <p>Caution: Firmware is different among series. Use the correct one.</p>
