The MTG Sync Board is optimized to work with the MTG Sync App. Using the App, simply take a snapshot of the whiteboard. The image is automatically corrected for keystone distortion using the unique frame recognition technology. The notes on the board are saved in a clearly readable, portable size. Using the MTG Sync App, the notes are easily organized and shared.

## A screenshot of a web browser window. A red rectangular box highlights the top portion of the browser, specifically the area containing the address bar. Within this highlighted area, the text "Title:" is visible on the left, and "Status:" and "Page:" are visible on the right. To the far right of the highlighted area, a vertical toolbar contains several icons: a magnifying glass, a home icon, a star, and a square. The word "PLUS" is partially visible on the right edge of the browser window.
